innovation in revenues and benefits service provision

innovation in revenues and benefits service provision

High quality and high performance has been achieved through truly innovative thinking and innovative service delivery, built upon a strong quality culture that filters through the management, policies, governance and service delivery of the partnership.

The Partnership

The Anglia Revenues Partnership (ARP) is an exemplar of the opportunities and benefits of public sector partnership working.

It demonstrates the real progress that can be made towards meeting the aspirations of both the local government modernisation agenda and of the customer. The partnership does this by placing quality and high performance at the centre of service delivery.

The ARP has successfully raised performance to top quartile in all key Best Value Performance Indicators for the services that it provides, whilst saving the two founding partners in the region of £400 000 per annum in the delivery costs of the services.

It couldn't be easier!

The Anglia Revenues Partnership offers help, guidance and experience and is keen to share its knowledge of all aspects of setting up a working partnership.

This leaflet has a tear-off slip for you to complete and either hand-in to the ARP team or pop in the post to The Anglia Revenues Partnership, no stamp or envelope necessary.

A member of the team will contact you and discuss the variety of ways the ARP can help.

Your authority can benefit from working in partnership in this way and it couldn't be easier to find out how.
